MEMORANDUM FOR THE RECORD

27 October 1950

SUBJECT: [REDACTED]

1. I telephoned [REDACTED] this morning and he informed me he does not intend to rescind [REDACTED]. Since the notice is merely for informational purposes, he believes it is adequate and the controversy over it is a "tempest in a teapot."

2. I also spoke to Messrs. [REDACTED] in the latter's office. Generally speaking, they consider the notice correct, but they do not believe it is sufficiently informative. They would have inserted the effective date of the statute, and would have pointed out that there are certain cases in which settlement will not be made by the agency concerned. They also would have delayed promulgation of the notice until CIA received regulations of the Comptroller General, which will be published next week. In addition, they believe such a notice should have the prior approval of the offices concerned with its administration.
